Troughs.

In hanging nets / On floor (natural eating position, but not of dirty floor or soil) / Feed rack /Other

How do staff handle animals

Did not observe.

Good / Fair / Poor / Unacceptable

Hiding areas

Hiding areas are provided.

Good (Box/Plastic Container) Fair (not enough) Unacceptable (None) Other

Environmental enrichment

Environmental enrichment is available.

PROTECTION:

Animals not only have to be protected from theft but also from negative human influences such as the teasing and chasing of the animals.

Animal supervision

No interaction with animals without supervision.

Interaction between the public and animals must be under strict supervision to ensure the animals are not teased, chased, frightened or abused in any manner.

Enclosure supervision

Adequate supervision must be provided to ensure that animals are not exposed, either deliberately or negligently, to harmful products such as cigarettes, litter, broken glass, potentially harmful foodstuffs or uncontrolled feeding programmes.

Birds of prey

Bird enclosures well protected.

In areas where birds of prey may pose a threat, sufficient vegetation, such as trees and shrubs, under which the small stock can hide will minimise the threat and offer protection.

Fractious animals

Fractious animals are being moved if bullied

Animals must be protected from bullying and aggression from other animals, including those of their own species. Fractious or aggressive animals must be housed separately or disposed of humanely.

Describe pest control?

Describe animals' individual diets?

Horses need different feeds depending on factors such as age, health, growth stage, work regime
