Comments:	Luxie the boerboel female that I have confiscated was taken to the Village Vet to be checked out . According to Dr Jen, Luxie has an infection and is very malnourished. Luxie was dewormed and was given antibiotics for her infection. Due to the infection and living conditions Luxie also sustained some wounds on her front paws and hind quarters. Luxie is now recovering at the Swartland SPCA. Will follow up on her progress at the SPCA.
