CHECKLISTS

General Report Comments: I went to Dwarskersbos to speak to Marlene who is one of the ladies who resides at Skilliepark in Dwarskersbos and also the place where the incident with the poisoned cays took place. Marlene took me to the field across the Skilliepark where they usually feed the feral cats to show me where they have found the deceased cats. According to Marlene they suspect the neighbor opposite Skilliepark because he went mad when Marlene and Naomi started to feed the feral colony. The other thing is that they don't have any proof although the autopsy of the cats shows they have been poisoned, but they don't have a acctual suspect. The incident with the neighbor happened once now they believe his the one that poisoned the cats. Marlene also told me that Jaco the guy from the neighborhood watch has video footage but has not yet been confirmed. I told Marlene that we will have get a suspect if we want to lay charges. For now it's all speculation on who the suspect may be,will take the case further when we have the video footage that Jaco claims he has.
