General Report Comments: All four dogs body condition is fair and acceptable. Water, food and shelter observed. Mr Mauritz informed me that the American bulldog bites the car's mud flaps and the wiring under the car. He has a water gun that he uses to scare the dog. He denied hitting the dog and his wife informed me that she knows the complainant and she claimed he peeps through the wall when she is in a swimming pool and they have had a fight. All four dogs vaccine is up to date.
