General Report Comments: I saw 1x pitbull female with a huge growth underneath her belly, the owner Santilal came out and told me that he is going to take the dog to Cape of Good Hope Spca for treatment on Saturday because the Doornkloof vet is too expensive. Water, food and shelter is available. The growth looks like it can be cancer but according to Shantilal the dog is producing too much milk. I issued him with a warning to get the dog to a vet over the weekend. Will recheck.
