General Report Comments: I stopped outside the home. There were children sitting outside the property. They said they were looking after the house. I asked them where the dog was and they said it is at the back of the yard in a camp and they can go show me. I saw the dog and the condition deteriorated. She did not get up. Her legs are covered with sores and her eyes were swollen. She appeared to be in pain and uncomfortable. I left a warning for the owner to provide veterinary care within 24 hours.
