General Report Comments: I saw 2x adult pitbull dogs in a confined space. The 2x dogs must poop and pee in the same space they living in. Living area is dirty. I could not clearly see the body condition of the 2x dogs because they were scared and was just standing in the one side of the enclosed space. Water was observed. According to the neighbors the dogs are never let out of the enclosed area and that the owners haven't been there for a while. Issued a warning to clean the dogs living area and to remove both dogs from this enclosed area and rather put them on running chains. Will do a recheck.
