General Report Comments: Hyron took me to the 2x donkeys where they were standing in the yard. Both donkeys body conditions is acceptable. The 2x wounds on the back leg of the donkeys has healed nicely and is starting to dry out. Hyron is using Teramysin wound spray for the wounds. Hyron also told me that the donkeys haven't been working since because the farmer he use to make wood from has found someone with a bakkie to make wood. Water, food and shelter is available.
