General Report Comments: The female dog is still very underweight. There was food in a bowl but the dog did not want to eat the food. Michelle said her husband did buy the wrong food. The dog does not like it food. There was no water. I gave the dog some of the food I have in the bakkie she ate all the food. The puppies are in a fair condition but one of them was underweight I picked him up and there was a whole under his neck. I left another warning for the owner to provide the dog with proper dog food and there must be water at all times. The owner did sign the one puppie over to the Spca admission D4158
