General Report Comments: I saw 1x black terrier x male on the property. The dog has severe mange. I asked the lady who came out if they are treating the dog for the mange and she told me that she is not the owner of the dog. The dog does have water and shelter available. I issued a warning to get the dog something at the vet for the mange and to provide him with adequate food because the dog is a bit underweight. Will recheck.
