General Report Comments: I saw 1x brown terrier x male on a short chain without a collar. I spoke to the owner Klara and she told me that they keep Zulu tied up because their property is not fully fenced and that Zulu is also aggressive. I explained to Klara that if Zulu needs to be tied, that that is acceptable ways to tie him so that he can have more space rather than chained at one place. I educated about a running chain and a collar. Water was also observed. I issued a warning to install a running chain and to provide Zulu with a collar. Will recheck.
