| Comments:       | <p>I went past the property again to see if Athini has returned . 3x unidentified females were sitting outside the house, they all said tgat Athini os with the dog on the farm , since yesterday and has not returned yet. I advised them that I will come past everyday to check, until I find him. I also advised them that they must inform him that I am looking for him.</p> <p>I am of the opinion that they are lying, and that he is inside the house, but that he did however took the dog to someone else, and is trying to hide from me.</p> <p>I will find this man eventually and will get the truth out of him.</p> |
