Comments:	I contacted the owner Saul Petersen to ask him if he took the dog to the vet as he has promised. Saul told me that he took the dog to Star Animal Projects who is in Chatsworth every second weekend . A lady called Monica gave the dog an injection according to Saul. I told Saul that Monica is not a vet and that the dog needs to get to a vet. Saul told me that he is off on Wednesday and then he will take the dog to a vet in Malmesbury. I explained if the dog has not been to the vet on Wednesday then I'm going to remove the dog from his care. Will follow up on
