Comments: Phoned Christelle (0720327571)

She did receive the email and her father will be dealing with this during this week. He has been away and will be back by Wednesday. She will let me know how the process is going and if they require assistance.

According to Christelle, they have properly cleaned the entire facility and welcomes me to come and look. I will go past next week, as this week is too busy. However, if I get a gap this week I will go past and see the progress made.
