Postal Code:	
Date:	2024-04-25
Time:	12:24
Inspector:	CARINA BODENSTEIN

Type:	CASE DISCUSSION NOTE
Follow-Up Date:	2024-04-29
Comments:	Spoke with my manager, Insp van Zyl this morning. We will unfortunately have to make a seal hook . She has a contact who she will ask to make one for us. Should be ready by next week, hopefully. Without the correct equipment there is no other way of cutting the embedded gut off . This is a very big, full grown adult seal and without the correct equipment, either we or the seal will become hurt, the seal will suffer due to the stress of excessive handling and we might also loose the oppertunity to successfully cut the gut as the seal might go back into the water.
