Comments:	I went past the property, as I was in the area, and was not aware that Insp October has been to the property earlier in the week, during my absence. I saw the dog is back and on a extended chain, however the enclosure has not been constructed yet. I tried to call Yolanda, to no avail and then sent her a whatsapp message to ask what is going on. Yolanda responded: [08/15, 12:41] Yolanda Magazi 23 Dolorite, Saldanha: Hi Carina. I have bought the material steel items but they were short according to the person who is going to build it, I must return and get higher ones, otherwise Nipsey can climb over them. [08/15, 12:44] Yolanda Magazi 23 Dolorite, Saldanha: I must hire a bakkie to get the longer ones in height that's where the problem is right now and of course I will need to pay extra as they are more. We are almost there. I also don't like the way he is chained up. we are working towards mking a flexible environment for him. I understand your frustration as well. Yolanda also sent me a picture of the structure she bought, that she thinks is too short (see attached). I will grant her more time to obtain the correct height structure, as she is trying to better the welfare of the dog.
