Type:	MEETING-OWNER
Follow-Up Date:	2024-10-22
Comments:	I made a turn at the property to inform the owner as to what Dr Cowan said. They immediately washed the wounds and applied Bepanthen cream, which will help the skin to heal well. They will wash the wounds 3x day and apply the cream. I will follow up next week again. The wounds were still looking good, dry, and clean. No puss or oozing. The dog pussting pressure on the leg and no swelling was observed.
