

INSPECTOR NOTE

Building:	
Street:	C/O OOSTEWAL STREET & ALAMABA STREET
Suburb:	
Postal Code:	
Date:	2024-10-24
Time:	09:39
Inspector:	CARINA BODENSTEIN

Type:	CALL RECORD - RECEIVED
Follow-Up Date:	2024-10-28
Comments:	I received feedback from Dr. Kotze, who advised that it is necessary for sheep to be sheared at least 1x year, as sheep does not shed their whool and external parasites can fest inside and under the whool. I have yet to receive feedback from Dr. Trichardt. I will call the owner on monday and arrange a meeting to meet with him and if the sheep have not been sheared yet (he previously advised that it will be done no later than mid November), I will issue him with a warning to have them sheared asap,
