CHECKLISTS

General Report Comments: Upon arrival. The entrance was closed with a wire gate, as cattle was roaming inside the camp.

I could see from the road that there are no pigs in the enclosures, not sure where they have been moved to. I could however see that the roof from the larger enclosure has been removed as well and that the one small enclosure has a solid roof now. I can only assume that the owner is busy reconstructing the enclosures.

I will do a routine check in 2 weeks time again to see what has transgressed.
