General Report Comments: I went to do a recheck at Hawk animal shelter. Upon arrival I was met by Vanessa who is second in charge when Andre Verbiest is not there. I asked Vanessa if Andre is there and she said no het went to Cape Town to pick up donations. Vanessa called Andre and he gave her permission to let me on the property. First we went to the building where the cats were kept, there were no animals inside that building and it was clean. Next we went inside the house where I observed about 9x dogs laying on the bed and in crates. Outside I observed more or less the same amount of dogs as on our previous inspection. I asked Vanessa if someone brought a injured Jack russel to them that needs veterinary treatment and she said no, they don't have any injured animals on the property, I also did not see any sick or injured animals. The dogs have water, food and shelter available. Body conditions of the dogs is also acceptable. Will do a recheck.
