General Report Comments: Andre Verbiest let me onto the property. The dogs looked fewer to me because usually when you come there the dogs will go on like crazy, but it was very quiet. Andre and I went to the building as you enter the property because I wanted to see if he has any cats, no cats was seen and no injured or sick dogs was seen in this building. We then walked to the house where I observed +- 17 dogs inside the house. The dogs inside the house is in acceptable conditions, and then I walked with Andre to check on the dogs outside, most of the dogs are loose on the property except for 4x pitbull type of dogs which are in kennels. I counted around 54 dogs on the property. All the dogs have access to fresh water, food and shelter. No sick or injured animals was observed. Will do a recheck.
