General Report Comments: The owner Chris Horne let me on the property to do an inspection. Chris took me to the sheep's enclosures where I observed 4x rams in two different enclosures, both pairs of sheep had fresh water, food and shelter available. The water buckets were clean and the living area was also clean. Next we went to the rabbits enclosures. Water, food and shelter is available. Living area is also clean. Chris has provided the rabbits with enrichment and a lot of hiding spaces. We then went through the enclosures of the other animals. Water, shelter and food was also available and living areas were clean. Body conditions are acceptable. No sick, dead or injured animal was observed. I asked Chris about the PAPA licence and he told me that he still awaits for feedback from the State vet. Will follow up.
