General Report Comments: Brent Visser let me on the property. I told Brent that the Spca has received a complaint about 2x Gds x puppies that are being kept in a crate the whole day. Brent told me that it's a lie and took me inside the house where I observed 1x Jack Russell terrier female and 2x GSD puppies inside the house. Both puppies is in acceptable conditions as well as the Jack russel female. The dogs have water and food available inside the house. Brent went to get the dogs vet cards and I could see that the dogs vaccinations and deworming is also up to date. Brent told me that when his wife is busy cleaning she let the dogs out and keeps them in a make shift camp that they have made while she is cleaning and for the most it will be for a hour or two that the 2x puppies will be in the little camp while his wife is cleaning. The reason for that is because the property is not fenced and Brent said they can't let them loose because he is afraid the 2x GSD puppies will get stolen. I told Brent that the puppies are getting bigger and the make shift camp is getting smaller for the puppies and that he must think of making the camp bigger. Will do a recheck.
