General Report Comments: When I arrived at the property I met Taju Hussein who is brother to the shop owner . He took me to a camp at the back of the shop where the cow is being kept.. I observed water and a small steel bowl with some leftover pallets. The cow does not have shade or shelter to hide from the hot weather. The cow's body condition is fair and acceptable. Taju informed me that the rope that is on the cow is for when they want to take the cow to the farm which Taju said might be today . The water bowl was in the sun and I advised Taju to place it where it is cooler . I issued a Notice to comply and will recheck
