CLEAN LIVING ENVIRONMENT	Yes	
ANIMALS IN GOOD CONDITION	Yes	
VETERINARY PROBLEMS / HEALTH CO	Yes ***	Under treatment, refer to report
CONFINEMENT OF ANIMALS	Static Chain - inadequate length **	Refer to report

General Report Comments: Upon arrival, I was met and granted access to the property by Ibrahim Daniels, the owner, Pieter's son.

I observed 3x dogs.

Dog 1: Peter, Ridgeback x, male, 9yrs, Brown, BS 2/5

Dog 2: Jack, Terrier x, male, adult, Black, BS 2/5

Dog 3, Stacy, Xbreed, female, 8weeks old, BS 3/5.

Jack was observed chained to a pole, the chain is approximately 1m long. There are free roaming sheep and the farmer advised them that the dog must be chained as the dog chases the sheep, hence the dog is chained.

The other dogs were free roaming.

The fly strike wounds have healed nicely as the wounds are no longer raw and have formed crusts.

The purple spray is applied daily, in the mornings.

Ibrahim advised that they will have the runner installed today, as they have all the materials.

Warning (W5212) was issued:

1. To place Jack on a running chain;
2. Continue treating the ears on a daily basis.

The dogs are slightly underweight, but have been dewormed recently. I will monitor their weight over a month's period, I also believe if the dog has more roaming space that the dog will gain weight, even build muscle.

Follow up to be done in 7 days regarding the running chain.

ACTIONS

Warning Issued

W5212

REPORT OUTCOMES

Follow-up inspection to be conducted 2024-02-28
