General Report Comments: Roderick who also rents at this property gave me access to see the brown dog with the injury. I saw 1x brown terrier x male with a open wound by the dogs neck that looked infected and the dog is also underweight. I asked Roderick if he know who the dog belongs to and Roderick told me that he thinks one of the tenants who stays here might be the owner but he is not sure. I issued a warning to get the dog to the vet within 24hours. Before I wanted to leave I thought of Section 5 in the APA whereby two people of sound mind can make a decision if a animal that is so deceased can be euthanized. I explained to Roderick what Section5 means and Roderick agreed that the dog is suffering and best will be to humanely euthanize. Refer to admission D5628. Nfa until further notice.
