General Report Comments: Upon arrival, I was met and granted access to the property by Mr & Ms Bosch.

I observed the same 3x dogs as previously. The dog of concern, named Bullet, was taken for medical treatment. Star Animal Projects was in Chatsworth last week and injected him with Ivomectim and dipped him. They are in the area on the 16th again and Bullet must then be taken back for follow up treatment.

It is too early to see any change in Bullet's skin, mange takes time to heal.

I will follow up after the 16th to verify that Bullet went for his follow up.

No APA contraventions observed during the time of my inspection.
