General Report Comments: Upon arrival, it appeared as if no one was home, as there was no response to my presense.

I observed the 2x black dogs still chained in short static chains of approximately 1.5m long.

The tan/brown dog was roaming freely inside the property.

I issued a 2nd warning (W5239) stating:

1. The current method of confinement is restricting the dogs movement and hindering them from expressing their natural behavior.
2. The dogs must be placed on running chains, refer to attached leaflet.

7 days were given for compliance.
