General Report Comments: I was met by Liezel Blaauw the owner of the property who told me that she was expecting the SPCA to come visit her because they had an incident this morning with the dogs. I asked Liezel what happened and she told me that she had to go fetch her daughter and grandkids from a abusive relationship and they brought her daughters dog Snoopie, a female terrier x, sterilized with them. Snoopie and Nala does not get along that well because Snoopie is a very dominant. Someone forgot to close the side gate and Nala came to the front and Snoopie went up to Nala and she started to scream if she is now being killed. I went to the back and met Nala a Golden retriever lab x female that is also sterilized and in good condition. Water, food and shelter was observed. In the front yard there is Max the 10 year old Staffie male that's also sterilized and Snoopie, Liezel's daughter's dog. All the dogs are in good conditions. Water, food and shelter observed for the 2x dogs in front as well. I contacted the complainant, Gail and explained the situation and what happened this morning and she understood. No welfare concerns were observed. NFA until further notice.
