General Report Comments: Upon arrival, I was met and granted access to the property by Ragel Julies, the property and animal owner's girlfriend.

I observed 1x dog, Bullet, Afrikanus x, male, adult, tan, BS2/5.

The dog is on a running chain of approximately 5m with an attaching 1m chain that has twirled, as there are no swivels at the ends.

The dog has all his other basic needs catered for.

I asked when the dog was last dewormed and Ms. Julies fetch the vaccination card which shows the dog was last dewormed in March 2023.

The dog is only slightly underweight and Ms Julies mentioned the dog eats alot. I saw the dog is also due for vaccination.

I proceeded to issue a warning (W5218) stating:

1. Make the attaching chain longer and fix swivels onto both ends.
2. Take the dog for his annual vaccination and also have the dog dewormed . Thereafter ensure the dog is dewormed every 3-5 months.

Follow up due 11 March, as his vaccination is due 8 March 2024.
