General Report Comments: Upon arrival, no one was home. I observed the dog placed on a 3m runner with an attaching 2m chain. There is no swivel, and the chain is twirled. The owner also placed the chain around the dog's neck inside a hose pipe.

The kennel seemed to be broken today as some of the side and top wooden panels have fallen in.

The owner did comply with the warning issued, however the runner is too short, kennel is no broken.

I issued another warning (W5234) advising:

1. Extend the runner to 5m+;
2. Use a swivel on the chain's ends
2. Fix or replace the dog's kennel.

7 days given for compliance.
