VETERINARY PROBLEMS / HEALTH CO	Yes ***	Not putting full pressure on leg
CONFINEMENT OF ANIMALS	Free roaming - in property	

General Report Comments: Upon arrival, It appeared as of no one was home as no response was received.

I observed 1x Black/Brindle, Pitbull, Male, Intact, Adult laying outside the property. As I approached the dog, the dog stood up and was limping with his right hind leg in the air. As the dog moved a bit the dog begun to use his leg and put some pressure on the dog. I took a video of the dog.moving without hinder. I proceeded to physically inspect the leg, paw. The are ko open wounds, all the old wounds have healed well and scabs have formed. The leg was not warm nor showed any sign of infection. When I pressend on the leg the dog acted normal and did not indicate any sign of pain.

I went and knocked on the door, as the main gate was open, but no one responded.

I looked on the case for a contact number of the owner to call him and discuss the status of the leg injury, but thete are no contact details capture on the case of the owner. I will have to return to the property in the hopes of finding the owner home to discuss the current status.

ACTIONS

OTHER Will have to return

REPORT OUTCOMES

Follow-up inspection to be conducted 2024-04-08
