CONFINEMENT OF ANIMALS	Static Chain - inadequate length ** Low fence, aggressive dog, no gates	

General Report Comments: Upon arrival no one was home. I saw the dog on the static chain, chained to his kennel.
A neighbor from accross the road approached me and advised that the dog broke loose feom the runner twice and bit several dogs in the road the previous day.

I seems as if the implemented runner wont work and the owner will have to enhance the structure.

I tried to call the owner, hower his phone was just ringing. I will send him a whatsapp to enquire about the way forwars and what else can be done that will work for the dog without putting other animals or people in harms way.
