General Report Comments: There was no people at home. I saw 1x black and tan Rottweiler male loose on the property. Upon closer inspection I could see that the dog has some ticks and fleas on him and I also observed fly bite wounds on his ears that is dry but has not been treated. The living area is also dirty and old feaces is lying around the dogs living area. I could see that the dog poo has not been picked up recently. I issued a warning to clean the dogs living area and to also get wound spray for the wounds on the dogs ear and also something for the ticks and fleas. Will follow up.

**ACTIONS**

Warning Issued W5010
