General Report Comments: Upon arrival, I was met and granted access to the property by Petunia.

At first Petunia did not want to grant me access, only after I told her I will obtain a warrant she granted me access.

Animals observed:

2x dogs are kept in the front section of the property.

Dog 1: Maltese poodle, black, male, adult - free roaming

Dog 2: Pekinese x, tan/white, adult, male - running chain, 4m with attaching 2m chain. The chain twirls as there is no swivel. This will be corrected in 7 days.

2x dogs are kept on the left side of the property.

1x Xbreed & 1x pekenise x.

Both dogs are kept on heavy static chains, of approximately 4m long.

The owner bought material to install runners, however I think runners will not work in the area as their chains will cross and become tangled.

I advised the owner to replace the heavy chains with long light chains and move one dog to the right side of the property.

The owner will impenent changes and asked that I revisit next week.
