General Report Comments: Upon arrival, i was met and granted access to the property by the owner, Corne.

I saw the dog, and his condition has improved since I last saw him. He only has a few bold spots on his legs and face left. The dogs weight has also improved.

The owner advised that Bravecto is too expensive to buy again and he got Simparica from the petshop, which he has been buying and giving monthly.

I will do a final check in a months time to verify continued progress.
