General Report Comments: I saw 1x black terrier x female lying in front of this address, upon closer inspection I saw that the dog has a skin problem. As I got out of my vehicle the dog started to ran away. I asked the kids in the street if they knew who this dog belongs to and they told me that the dog is always at this address so they think the belongs to the people at this address. I could not enter the property to see if there is water, food or shelter available because the gate was locked. I issued a warning to provide the dog with treatment for the skin condition if the dog belongs to the people at this address. Will follow up.
