General Report Comments: I saw 1x brown pitbull x female with 7x puppies. The dog is underweight. Hannes the owner came out and I asked him if he has food for the dog because she is underweight. Hannes told me that he do cook food for the dog but it's because of the puppies that Layla is so underweight. I told Hannes that if Layla was receiving adequate food on a daily basis that she would not be looking like this. Water and shelter is available. The puppies is in acceptable conditions. I issued a warning to get Layla dewormed and to also provide her with adequate food on a daily basis. I also advised Hannes that he can surrender Layla and the puppies if he is unable to care for them. Will follow up.
