General Report Comments: Access granted and accompanied by the owner, Joshlin Russouw.

Only has fish, rodents (hamster & rats) and birds.
Animals basic needs are well catered for, for the temporarily housing they are in.

1x dead gold fish was found in a quarantine tank. The fish arrived friday, 3/5/2024. The fish did not acculate to the transition. It was removed immediatly and placed in a bag in the freezer for discarding at a later stage.

Regarding complaint: the rats and hamster are kept in glass tanks (30cm x 60cm). The tanks are small, however, they can sit, stand, stretch out, turn around, lay down and move around comfortably. They have food, water, clean areas and hiding spaces. This is temporary housing, and no signs of behavioural or stereotypical concerns were observed due to their confinement.

NO APA CONTRAVENTIONS OBSERVED DURING THE TIME OF INSPECTION.
