General Report Comments: I was met by Elmene Titus who is the owner of the property and therefore also the owner of the dog . The terrier x male is still on a short chain. The area where the dog is chained has no space to install a running chain, but next to the house there is enough space to install a running chain. Water and shelter is available and the dogs body condition is acceptable. I explained to Elmene why the dog needs to be on a running chain so that the dog has more space to move. Elmene understands and said that they will install the running chain. I issued a warning to install a running chain within 5x days. Will follow up.
