CHECKLISTS

General Report Comments: The Spca received a anonymous call from 0730596317 about a dog that was hit with a panga in Nackerdien street,Vredenburg. According to the complainant the dog was attacked by gangsters while trying to break in. I asked the complainant how bad the injuries are and he told me that the dog has an open wound on his leg. The complainant gave me the address so I went through to Vredenburg. Upon arrival I was met by a young man who introduced himself as Barney Parker and who also happens to be the owner of the dog that was hit with a panga. I told Barney that someone contacted the Spca emergency number because this person is concern about his dog. Barney admitted that his dog was hit with a panga but the injury is not that serious. Barney claims that they have cleaned the wound and put some wound ointment on it with a bandage. I asked Barney to see the dog and he told me that his brother who lives in town came to fetch the dog to keep him safe. Barney did not want to tell where his brother stays so that I can go check if what he is saying is true. I issued a warning to get the dog to the vet within 24 hours because I don't know if Barney is telling me the truth. Barney acceptable the warning and told that his brother will take the dog to the vet. I will hand this case over to Inspector Bodenstein to do a follow up.
