General Report Comments: I saw 1x black and brown collie x male on a long static chain because the property is not fully enclosed. The dog does not have a collar. Freddie the owner of the dog came out and I educated him about the damage the bare chain around the dogs neck can cause. Freddie understood and told me that he will provide the dog with a collar. I explained to Freddie that he can use a hose pipe and put the chain through the hose pipe so that the dogs neck will be protected against the bare chain. I issued a warning to provide the dog with a collar. Will follow up.
