General Report Comments: There was no one at home. I saw the black and white collie x inside the property. The dog still has a skin problem. My colleague Patrick Chiwawa advised me when he went to do a recheck the owner showed him shampoo for ticks and fleas. As I discussed with the owner on my first visit they need to get the dog some treatment for the skin problem and I have told them what products are available and what they can use. I issued another warning to provide the dog with treatment for the mange. Will recheck.
