General Report Comments: Upon arrival, I was met and granted access by Hope, one of the residents on the property.

I observed 2x dogs free roaming inside the property. The dogs appear to be in fair condition and is clearly very active as they run up and down alot. There are 2 large carports available for shelter, also a kennel for additional shelter. The dogs have a large bowl for water. They are fed in the evenings with bobtail and house food. The dogs were friendly towards me and showed no signs of aggression.

The black dog belongs to Hope. The White and brown dog belongs to the other male resident on the property.

I did not observe any signs of chains on the property or shaving of a collar or chain around the dogs' necks.

Both dogs were at the mobile clinic recently where the were dewormed and dipped.

No contravention of the APA was observed during the time of my inspection .
