VETERINARY PROBLEMS / HEALTH CO	Yes ***	Both dogs have skin problems, mange.
CONFINEMENT OF ANIMALS	Free roaming - in property	

General Report Comments: While doing door to door I saw 2x Maltese x dogs lying inside the yard. I stopped to have a closer look at the dogs. Upon close up inspection I observed that both dogs have a skin problem that could be mange,a man came out of the house who introduced himself as Melvin Swarts the owner of the 2x dogs. I asked Mr. Swarts if he is aware that the dogs have a skin problem and if it's being treated. Mr. Swarts told me that he is aware of the problem but he does not what to get them to treat the skin condition. I told Mr. Swarts that he can use 3 different products but 1x of these products called Sampirica are cheaper then the other 2 but is just as effective as the other 2 products. Mr. Swarts told me that he is willing to get the tablets for the dogs but he will only be able to get the tablets on the 3rd of July 2024 when he gets his government pension. I told Mr. Smith that I'm not unreasonable and will give him until that time. The 2x Maltese x males skin conditions are not that severe that they need treatment immediately that's why I'm giving Mr. Swarts until the 5th of July 2024 to adhere to the warning W5055. Will follow up.

ACTIONS

Warning Issued W5055

REPORT OUTCOMES

Follow-up inspection to be conducted 2024-07-05
