General Report Comments: Upon arrival, I was met with the owners.

I went to each property to see how the animals are doing and if they are still on runners.

The owners are still in compliance as the dogs are still on their runners, with light chains, adequate collars and attaching swivels. The dogs had water and access to adequate protection against the weather elements. The dogs appeared to be in good condition, with no veterinary or health concerns observed.

I advised the owners that I could unfortunately not find a sponser for the sterilization of their dogs yet, but that I will keep on trying.

Owner 2 was not home and I could not go in at his property to see his dog, as I looked for the dog but could not see her. I will go past next week again to do a final check on owner 2.
