General Report Comments: Upon arrival, I was met by the owner, Hennie.

I saw the owner extended the rope with another rope, making the entire rope approximately 10m long. The dog has 360 degree movement space as the rope is attached to a swivel wire around the washing line.

The dog has access to his kennel which provides adequate protection against the weather elements.

The dogs living area is clean and the dog has no veterinary or health concerns observed.

The owner advised that he wants to install a runner on the right side of his house, he is just waiting for his brother to bring him a cable and tools and assist him with the installation, he advised he would like to do it within this month.

There is currently no APA contraventions, as the owner complied with the warning issued, however I will conduct a routine inspection next week to ensure continued compliance and also assist with the installation of the runner.
