General Report Comments: Upon arrival, no one appeared to be home, as there was no response to my presence.

I observed the dog on a runner. The runner is approximately 8m long with an attaching 2m light chain and swivels to prevent twirling. The dog had a suitable material collar fitted. The dog has now access to a large wooden kennel which provides adequate protection against the weather elements. The dog also had access to drinking water.

The dog appears to be in good condition with no veterinary or health concerns observed.

I am confident in closing the case, as there are no APA contraventions observed.
