General Report Comments: Upon arrival, no one appeared to be home as there was no response to my presence.

I observed the kennel moved against the fence and fixed. The large opening has been closed and the back of the kennel also has a new wooden plank. The floor section has been cemented and is elevated from the normal ground level. The dog is still on his runner with all his basic needs catered for.

I will conduct a final inspection in a weeks time, when I am in the area to ensure continuous compliance.
