General Report Comments: Upon arrival, I was met and granted access by Eldie who is the owner's nephew. He advised that the owner will only be home after 12h00. I asked if knows if the dog went for treatment yet, he advised that the person that knocked the dog will take the dog to the vet this afternoon, but he does not know all the details. He gave me the owner's contact number 0711482040.

I called the owner, she informed me that the person that knocked the dog will come this afternoon to collect the dog and take the dog to the vet in town. They have in the interim put makerocram (red self) on the wound and bandaged the wound to keep it clean.

I advised that I will call her this afternoon again to verify as to which vet the dog went to for a report.

I saw the dog, the dog was tethered underneifht the carport, to prevent the dog from running into the street again as they must still fix the gate where the dog came out. The dog had water, shelter, a clean living area and a material rope as a collar fitted. The dog will be free roaming as soon as the gate is fixed, by the weekend.
